

HOW TO USE

1. Print at 100% scale — do not scale to fit.
2. Place a credit card on the box above.
The red lines must align with the top and bottom of the card.
3. Place a ring you already own over the circles.
4. Find the circle that matches the inside edge of the ring.
5. If between two sizes, order the larger size.
6. Wide bands (5mm+) may feel tighter — consider half a size up.
